QMA WESTERN REGION

Track promoter and race director, Publicity coordinator and social media advisor.

I am a crazy fun-loving life filled crazy gal. I love kids I embrace life thru the smiles of a child. I have been blessed to be able to impact children's lives thru racing and coaching. My passion is outreach to those less fortunate. My goal is to build a Special Needs race camp and that has already been started. I enjoy people and embracing news and outreach and would be amazing Publicity board member. Who would not want me to reach out and share this amazing program for kids It's all about building one track at a time.

MOM

Publicity is part of my everyday living as a teacher and a mom. It enables me to communicate to all those that are involved in AG or California Cadets. I run 15 pages with assistance from 2 others. Our outreach is updated and kept current allowing parents and students to know what is going on at all times. Our QMA Facebook pages for the new tracks are changed almost daily with uplifting positiveness and communication to stay strong and accurate. I am wrtting for the Nevada Humboldt newspaper in a new race column weekly allowing me to outreach also for QMA. Also a documentary is in place with Channel 3 with Dustin"Quarter Midget racing Thru the Eyes of a Child" I feel I am a strong empowered women and advocate to promote this amazing racing program.
