

## QUARTERMIDGETS OF AMERICA RACING CHARTER

### **Racing Charter:**

A Racing Charter is just what it states, an existing club that renews yearly, with previous rules, bylaws and schedule on file (must be a permanent track and comply with QMA Rules and Regulations). The clubs can make a few revisions year to year to their bylaws, rules, etc. with Vice President of QMA Approval and final approval from the National Board of Directors.

A new Racing Charter is a new club that has had their completed track approved from the National Safety Director. (Track must be permanent and comply with QMA Rules and Regulations). Along with being approved, they must also have their rules, by laws and schedule approved (must comply with QMA rules and regulations) by the National Board of Directors.

A club with a Racing Charter that has lost their track or property will become eligible to obtain a Non-Racing charter for one year. They must follow all Non-Racing Charter Procedures.
